

Real Training. Real Practice. Real Results.

# Amazon Web Services (AWS) Certified Solutions Architect – Professional

## Training Program

### Course

The AWS Certified Solutions Architect – Professional level is an advanced course aimed at individuals who have two or more years hands-on experience designing and deploying cloud architecture on AWS. At the end of the course you need to be able to understand: how to evaluate cloud application requirements and make architectural recommendations for implementation, deployment, and provisioning applications on AWS; also be able to provide best practices guidance on the architectural design across multiple applications, projects, or the enterprise.

### Exam

The AWS Certified Solutions Architect – Professional level exam validates advanced technical skills and experience in designing distributed applications and systems on the AWS platform. Example concepts you should understand for this exam include; designing and deploying dynamically scalable, highly available, fault tolerant, and reliable applications on AWS; selecting appropriate AWS services to design and deploy an application based on given requirements; Migrating complex, multi-tier applications on AWS; designing and deploying enterprise-wide scalable operations on AWS; and implementing cost control strategies. **Eligible candidates for this exam must have achieved AWS Certified Solutions Architect - Associate.**

## Learning Objectives

- **Domain 1:** High Availability and Business Continuity
- **Domain 2:** Costing & Account Management
- **Domain 3:** Deployment Management
- **Domain 4:** Network Design
- **Domain 5:** Data Storage
- **Domain 6:** Security
- **Domain 7:** Scalability and Elasticity
- **Domain 8:** Cloud Migration and Hybrid Architecture

# AWS Professional

## Course Features

- Live instructor-led training in modern classrooms
- Thorough review of AWS Solutions Architect by industry experts
- Hands-on labs with computer hardware and software
- 100% latest material & all practice questions
- Confidence building hands-on training
- Classroom located in Reston & conveniently accessible from Silver Line Metro
- Authorized Pearson testing at same location to help you complete your exam\*
- Study material, notes, videos and practice questions included in course price.

## Course Schedule

Session	Topics
1	<ul style="list-style-type: none"><li>• High Availability and Business Continuity</li><li>• Costing &amp; Account Management</li></ul>
2	<ul style="list-style-type: none"><li>• Deployment Management</li><li>• Network Design</li></ul>
3	<ul style="list-style-type: none"><li>• Data Storage</li><li>• Security</li></ul>
4	<ul style="list-style-type: none"><li>• Scalability and Elasticity</li><li>• Cloud Migration and Hybrid Architecture</li></ul>

## Our guarantee

If you do not achieve a passing score on your first attempt at the exam within 30 days of completing the class, you will have the option to re-take the entire training course at no additional charge.
